ABSTRACT

An inventory of academic programs offered for credit and leading to an academic award offered by Alabama's public senior institutions and branch campuses as of June 1, 1986, is presented. For each college and program, charts indicate program titles, levels of degrees offered, and accreditation status. Included are summary charts of degrees offered by program, i.e., the number of programs at each institution by level (certificate, associate, bachelors, masters, education specialist, first professional, and doctor's). A list of accrediting organizations as well as abbreviations of degree programs are appended. All programs are classified in accord with the National Center for Education Statistics' "A Classification of Instructional Programs." The following institutions are included: Alabama A&M University, Alabama State University, Athens State College, Auburn University, Auburn University at Montgomery, Jacksonville State University, Livingston University, Troy State University, Troy State University at Montgomery, University of Alabama, University of Alabama at Birmingham, University of Alabama in Huntsville, University of Montevallo, University of North Alabama, and University of South Alabama. FOREWORD

The 1986 edition of the Inventory of Academic Programs reflects all programs offered for credit and culminating in an academic award offered by Alabama's public and private two and four-year colleges and universities as of June 1, 1986.

All data were submitted by the institutions and verified by the institutions and Commission staff. Program titles, levels of degrees offered, and accreditation status are listed for each program. A list of accrediting organizations as well as abbreviations of degree programs offered may be found in the appendix.

The inventory is published in five volumes: public senior institutions and branch campuses (Volume One); private senior institutions and branch campuses ; private junior colleges (Volume Two); Regional Technical Institute (RTI) linkage programs; public junior and community colleges (Volume Three); public technical colleges (Volume Four); and Alabama State Board of Education-Approved Teacher Education Programs (Volume Five).

With the exception of teacher education programs which are categorized according to a program taxonomy developed by the State Department of Education, all

programs are classified in accord with the National Center for Education Statistics (NCES), A Classification of Instructional Programs (CIP). This classification permits institutions of higher education with diverse organizational structures to utilize a variety of program and course titles. It accommodates modes of operation common to the institutions and facilitates comparisons of information through a taxonomy designed to permit comparability among institutions nationwide. (A guide to CIP categories is included in the table of contents.)

A summary of programs offered by level follows:

APPENDIX

LIST OF ACCREDITING/APPROVING ORGANIZATIONS
DESIGNATED IN THE ACADEMIC PROGRAM INVENTORY

The Council on Postsecondary Education (COPA), in its 1984-1986 Guide to COPA Recognized Accrediting Agencies, defined accreditation as "... a system for recognizing educational institutions and professional programs affiliated with those institutions for a level of performance, integrity, and quality which entitles them to the confidence of the educational community and the public they serve." (p. iii). In the United States, accreditation is a voluntary process whereby various institutional and professional associations establish criteria, make site visits, evaluate institutions or programs, and publicly indicate which institutions meet their criteria.

COPA is a nongovernmental organization which was established in 1975 to recognize, coordinate, and periodically review its member agencies and evaluate the appropriateness of existing or proposed accrediting agencies. Accrediting agencies may also seek recognition by the Secretary of Education, U.S. Department of Education (USDE). A Division of Accreditation and Institutional Eligibility was established in 1968 to review the operation of such agencies to help assess institutional quality and reduce fraud and cheating in the distribution of federal funds. Recognition by COPA and/or the USDE, however, is strictly voluntary, and some agencies which evaluate and "approve" or "accredit" programs may not seek recognition by either group, or may have sought such recognition and been denied. Some of these associations are viewed as legitimate, positive influences on education. However, since there are no federal or state restrictions on the establishment of accrediting agencies some of these organizations have been subject to criticism for conducting less than rigorous reviews.

The abbreviations for the accrediting/approving agencies which review programs in Alabama public senior institutions are given below. Those agencies with COPA and/or USDE recognition have been so designated. The inclusion or exclusion of any organization or agency on this list, however, should not be interpreted as a judgment of the merits of recognition by that organization.

ALABAMA COMMISSION ON HIGHER EDUCATION

Created by the Legislature in 1969, the Alabama Commission on Higher Education has sought to coordinate public higher education in Alabama for more than 17 years.

In fulfilling its responsibility to approve new programs, review existing programs, formulate annual budget recommendations, coordinate student financial aid programs and chart long-range goals for higher education, the Commission must also match the strengths of each of the 57 institutions under its guidance with the available financial resources.

To ensure those decisions are made with an awareness of the educational and financial consequences, the Alabama Commission on Higher Education provides data; responds to inquires; conducts studies; and offers other assistance on higher education matters to the governor, the Legislature, the institutions and the citizens of Alabama.

The Commission is composed of 12 members - 10 appointed by the governor, one by the lieutenant governor and one by the speaker of the House - who serve staggered nine-year terms.

Dr. Joseph T. Sutton is Executive Director, overseeing the activities of a staff of nearly 80 full-time employees.
